

# ANTIQUÉ BROWN

## NEDERLANDS

Antique Brown Terracotta is gemaakt uit natuurlijke klei uit de bedding van de Mekong, gemengd met fijn zand. Het wordt gebakken in een traditionele oven tot op 1050°C en dit gedurende 4 tot 8 dagen.

De antiek bruine kleur wordt verkregen door ijzerdeeltjes toe te voegen aan de klei. Dit geeft een antiek en sterker uitzicht aan de potten en verhoogt de sterkte en duurzaamheid.

Dit product is beperkt vorstbestendig onder normale omstandigheden. Zorg er dus voor dat het water niet in de pot kan blijven staan. Het is ook aangeraden om tijdens periodes van strenge vorst de pot op voetjes te plaatsen.

## ENGLISH

Antique Brown Terracotta is made of Natural Clay from the Mekong-Riverbed, mixed with fine sand and burnt in a traditional round kiln up to 1050°C for 4-8 days. Color Antique brown is achieved by adding iron-minerals into the clay.

It gives an antique and stronger tone and also increases the strength and durability. This product is limited frost proof under the standard conditions (no water accumulating inside and using feet to lever product above ground during strong freezing periods).

## FRANCAIS

Antique Brown Terracotta est composé de sable fin et d'argile naturelle venant du lit du Mekong. Les pots sont cuits dans des fours traditionnels jusqu'à 1050°C pendant 4 – 8 jours.

La couleur antique brune est obtenue en ajoutant des particules de fer à l'argile. Cela donne aux pots, en plus d'un aspect antique, une solidité et une plus longue durée. Sa résistance au gel est limitée sous conditions normales.

Évitez que l'eau reste dans le pot. En cas de gel sévère, il est conseillé de mettre le pot sur des pieds.
